Recovery points can be automatically moved to the vault-archive tier using backup policy. Learn more. →

The retention changes will be applicable to all existing and future recovery points. However, any new retention category(weekly/monthly/yearly) added to the existing policy will be applicable only for future recovery points. We recommend you to make calculative and appropriate adjustments in the daily retention value to ensure you lose only the oldest daily recovery points and not a huge subset of the existing recovery points.
